# C8907 SOLID TIRE

## A WINNING COMBINATION OF STRENGTH AND COMFORT

- Wide, large tread with flag-style pattern enlarges ground contact area for excellent control and grip
- Reinforced rib is added on both sides of shoulder to increase the tire's toughness, delivering extra durability
- Wide void groove and heat sink in the shoulder area improves heat dissipation, minimising rising temperatures
- Exclusive patented design of two rows of shock-absorption holes on both sidewalls work with the super-elastic rubber compound to improve comfort
